Drug Demand Reduction

- Drug abuse is a universal problem that affects millions of people. Drug users are found in all professions, in all income and social classes as well as in all age groups. Over the years, steadily addictive subculture has been developing due to increase in the number of substance abusers.
- Owing to much injurious effects, drug abuse is one of the burning problems of the Pakistan. Public awareness campaigns precede all other efforts to change the attitude and behavior of the people towards drug abuse. It is difficult to curb the drug menace without developing public conscious against it.
- In this regard ANF is continuing its efforts to create awareness amongst the masses especially amongst the youth by involving different Community Based Organisations (CBOs) and NGOs. A summary covering awareness activities performed by ANF Regional Directorates during the quarter ending December 2014 is as under:-
